## Large formats and quality prints

My Fine Art prints of your portraits have a ***lifespan of 150 years***

They are entirely prepared and carefully crafted at my professional Art photo processing lab.

I selected the highest Fine Art quality paper of remarkable velvety color rendering and generous thickness (between 270g/m<sup>2</sup> and 350g/m<sup>2</sup>) with a noble texture.

The prints are released ready to frame, in a tailor-made mat.

## GROUP PORTRAIT SESSION

Your portrait session up to 2 to 4 people,  
Fine Art print, with assorted tailor-made  
mat, web version included.

> Per additional person, an extra fee of  
€85 is being charged.

*FRAME, hang, admire !*

## WALL ART

Quality FRAME by Nielsen  
in raw oak or mat black  
anti-reflective museum glass

## DIBOND RELEASE - SHADOW BOX

Your Fine Art portrait composite-laminated on to  
a 3 mm thick aluminium Dibond sheet for a  
contemporary design and compact thickness even for  
big enlargements.

This technical process provides perfect stability and  
optimum rigidity to your portrait as well as a long-  
lasting result, whatever chosen portrait size.

A shadow bow is a frame which separates the  
photograph and the edge of the frame with an interior  
space of several millimeters, giving the impression that  
the portrait "floats" in its frame.

> individual quote on request

Your portrait will stay in better condition  
and last longer, well protected in  
an elegant frame and shine bright  
under anti-reflective museum glass.

In raw oak or mat black, this elegant  
wood-look finish is the final touch to  
bring your favorite portrait out.

I entrust your precious memory to  
a first choice crafts-framer
