Large Fine Art quality prints

My Fine Art portrait prints are carefully prepared, printed and crafted at my studio or at my professional photo processing lab (for the XL and XXL prints).

In a resolute attempt to stand out from the regular shiny photo paper and to favor an elegant mat shine, I selected the highest Fine Art quality papers available on the market (between 270g/m2 and 350/m2 thickness) for a noble, bulky and textured finish.

For a splendid and optimal color rendering and definition.

All prints are released ready to be framed and matted.

GROUPE PORTRAIT SESSION

Your portrait session starting between 2 - 4 people, Fine Art XL or XXL print, with matching mat and web-res file included

30 x 45 cm	495 €
40 x 60 cm	545 €
50 x 75 cm	595 €
60 x 90 cm	645 €

Frame, hang, admire !

« Bring your one most valuable memory into your life and up your wall ! »

WALL ART

quality FRAME

in natural oak or mat black, anti-reflective glass

Individual offer on request.

DIBOND RELEASE - AMERICAN BOX

Your Fine Art portrait composite-laminated on to an aluminium sheet for a contemporary design look and compact thickness even for big enlargements.

This technical process provides perfect stability and optimum rigidity to your portrait as well as a long-lasting result, whatever chosen portrait size.

The American box is a frame that separates the photograph and the frame from the frame by an interior space of several mm, giving the impression that the portrait "floats" in its frame.

Individual offer on request.

Glorify the moment that matters most with a premium gallery photo frame of your favorite portrait.

Your print will last longer if mounted and gain in brightness if covered with anti-reflective glass.

In natural oak or mat black, an elegant wood-look finish is the final touch to bring your favorite portrait out.

I entrust your precious memory to a first choice crafts-framer !

PLEASURE OF GIVING

An extra Fine Art print of your favorite portrait as a perfect give away : starting 145 €
